

# China International Workshop on Surface Texturing

CIWST 2010

## The first round announcement

### Scope of the Workshop

The China International Workshop on Surface Texturing (CIWST) 2010 is being organized at Beijing, China in 2010. The principal aim of this workshop is to bring people who work on surface texturing together, and to provide an international platform to exchange high-quality ideas and to present fresh research results on surface texturing. Prospect of researches and applications of surface texturing will be discussed. **The workshop program consists of only invited talks from the most active scientists and researchers currently working on surface texturing.** The latest results from the world active groups in surface texturing will be presented and full discussion is expected for every presentation.

### Organized by:

The State Key Laboratory of Tribology Tsinghua University
